Dear Ben,

We know that we are working with a tight budget, and in order to accord more money for your hotel and your travelling, we can affect 500 euros provided for cleaning space on the budget of the last exhibition. So we couldn't put over 1500 euros for hotel and travelling.

We proposed you november for beginning the meetings, because making etchings take a lot of time. We suppose that you want to realise one etching by families, in 5 exemplaires. That gonna give 50 etchings in all. You have to realised the 10 matrixes (for one week), after meetings we suppose ? It takes another one week for printing 50 etchings. And before framing them for the exhibition (10 days before the opening), we have to let them dry during 10 days. More over, during that months there are public holidays. Consequently, we though that it would be good for meet people on november or on beginning of december, before realising gravings. Give us some dates to contact people as soon as possible and take appointments.

Would you be okay for using our frames ?

If you had some texts which could be using for the press release, mail them to me.
 Thanks,

Yours,
 Sophie
