dear Ben,

Hope you are well

The cneai is preparing a book that relates 3 cycles of 3 years, since its creation. Instead of a complete review of its exhibitions, publications, editions, this book would be organized in 20 rubrics, each is delegated to an artist or to Alex Trüb, the main graphist of the book.
The book will be 21 cm (wide) by 27 cm (high) and will approximately have 320 pages.

We would like to mention your biography in a rubric dedicated to artist's biographies. So we'd like to ask you a personal biography - text, image(s), quotation that allow a contextual reading of the becoming of your work, instead of compiling a register of your exhibitions.

We thought we could allow 1/4 of a page for each artist but do as you like.

The layout of the book will be designed in October so we need your intervention for the end of September. Would you please make a pdf file as follows: name/size of the document/bio.pdf

Don't hesitate to contact me for any question.

All the best,

Vincent Romagny
