Towards a definition of project art

Project art consists of temporary unique works of art, which are located in public
spaces and are often on display for limited periods of time. These works are
usually commissioned and can vary in size, color, and style. Project art is
created to promote awareness of social issues, political changes, or environmen
tal concerns. It can be an art object created for a public display, such as an
installation, or an art event that takes place in a specific location.

Ethical considerations in project art

In project art, it is crucial to consider the context in which the art is created. When
participants are involved in a project, the participants' needs should also be considered. Projects should not harm or
exploit anyone, and their consent should be obtained. Ethical considerations should include:

- Participants' rights to privacy and confidentiality should be respected.
- Participants should have the right to withdraw from the project at any time without
  consequences.
- Participants should be informed about the nature and purpose of the project,
  including any potential risks or benefits.
- Participants should be given the opportunity to provide consent in a manner that
  respects their autonomy and freedom of choice.
- Participants should be informed about any potential consequences of their
  participation in the project.
- Participants should be informed about any potential use of their contributions
  and how it will be shared or distributed.
- Participants should be informed about any potential risks to their
  personal or professional lives.
- Participants should be informed about any potential financial
  incentives or rewards for their contributions.
- Participants should be informed about any potential risks to their
  physical or mental health.
- Participants should be informed about any potential risks to their
  emotional or psychological well-being.
- Participants should be informed about any potential risks to their
  social or political status.
- Participants should be informed about any potential risks to their
  legal or financial status.
- Participants should be informed about any potential risks to their
  professional or academic status.
- Participants should be informed about any potential risks to their
  physical or mental health.
- Participants should be informed about any potential risks to their
  emotional or psychological well-being.
